## EDUCATION

---

National Law University, Delhi  
(2015)

## WORK EXPERIENCE

---

- I have more than 6 years of experience in the technology, telecom, data privacy and commercial laws practice areas.
- I have advised technology, media and telecom companies on a wide range of regulatory and contractual matters in relation to privacy and data protection, intermediary liability, IP assignment and licensing, sourcing contracts, colocation agreements, IT outsourcing, gaming regulations, internet telephony and unified license for data and voice services.
- I have assisted technology companies including fintech and gaming startups in relation to disruptive technologies, products and new business models.
- I regularly advise Indian and foreign technology companies on their business models, regulatory risks and issues in India.

## WORK HIGHLIGHTS

---

- Advised Stillfront Group on its acquisition of Moonfrog Labs - a leading game development company in India.
- Currently advising a global cryptocurrency exchange on intellectual property and data protection related issues in relation to its Indian business.
- Assisted companies such as AWS, Accenture, Truecaller, Splunk, JCB, Blackhawk, Equifax, Credit Karma, PayPal and Omron in relation to data privacy and Indian information technology law related matters including drafting privacy policies and terms of service.
- Advised companies like Tencent, Blackhawk, Google and PayPal in relation to operation of payment systems and payment regulations in India.
- Advised multiple clients on advertisement, marketing and telecommunication related laws.
- Drafted and negotiated SaaS and other technology and software licensing contracts for multiple Indian and foreign technology companies.
